

WHERE SCIENCE IS PROVEN  
*and your hair shows the results*

## Cutting Fine and Thinning Hair

Fine, thinning, aging hair needs a little TLC. If you're clients are experiencing aging hair and hair fall, their first thought may be to accept the cards they've been dealt and adjust to life with it or trying to ignore it altogether. The good news is that they don't have to accept aging hair without a fight.

When it comes to fine, thinning and ageing hair it's difficult to know how to style it to minimize breakage and stress on the hair while add volume body and the illusion of thickness.

Join us and discover the right cuts for women and men, healthy hair lifestyle tips, styling tricks and product system of clinically tested active ingredients that will allow you to address all your clients needs and change their lives for the better.
